Proposal of the Board of Directors of Securitas AB for guidelines for remuneration to senior management

The Board of Directors of Securitas AB proposes that the Annual General Meeting on 4 May 2016 adopts guidelines for remuneration to senior management in accordance with the following.

The fundamental principle is that remuneration and other terms of employment for senior management shall be competitive and in accordance with market conditions, in order to ensure that the Securitas Group will be able to attract and keep competent senior management employees.

The total remuneration to senior management shall consist of a fixed basic salary, variable remuneration, pensions and other benefits. In addition to a fixed annual salary the Group Management may also receive variable remuneration, which shall be based on the outcome in relation to financial goals within the individual's area of responsibility (Group or division) and which shall be aligned with the interest of the shareholders. The variable remuneration shall amount to a maximum of 60 percent of the fixed annual salary for the President and CEO and a maximum of 42 – 200 percent of the fixed annual salary for other individuals of the Group Management. If cash payment of variable remuneration has been effected on grounds later proven to be obviously inaccurate, the company shall have the possibility to reclaim such paid remuneration.

The Board of Directors shall each year consider whether to propose that the General Meeting shall resolve upon a share or share price related incentive program.

The cost of the company for 2016 in terms of its obligations to pay variable remuneration to the Group Management is estimated to not exceed a total of MSEK 79 at maximum outcome. Information on previously decided remuneration which has not yet been paid can be found in note 8 of the Annual Report for 2015.

The pension rights of senior management employees shall be applicable as from the age of 65 at the earliest and the entire Group Management shall be subject to defined contribution pension plans for which insurance premiums are transferred from the individual's total remuneration and paid by the company during the term of employment. Variable compensation shall not qualify for pension purposes unless local regulations provide otherwise.

Other benefits, such as company car, special health insurance or occupational health service shall be provided to the extent this is considered customary for senior management employees holding equivalent positions on the labor market where the senior management employee is active.

At dismissal, the notice period for all senior management employees shall amount to a maximum of 12 months with a right to redundancy payment after the end of the notice period, equivalent to a maximum of 100 percent of the fixed salary for a period not exceeding 12 months. At resignation by a senior management employee, the notice period shall amount to a maximum of six months.

These guidelines shall apply to individuals who are included in the Group Management during the term of application of these guidelines. The guidelines shall apply to agreements entered into after the adoption by the Annual General Meeting, and to changes made in existing agreements after this date. The Board shall be entitled to deviate from the guidelines in individual cases if there are specific reasons for such deviation.

Proposal of the Board of Directors of Securitas AB for the implementation of an incentive scheme

Background and motives

For the past six years, the Annual General meeting ("AGM") has adopted a share related incentive scheme for the Securitas Group. The Board notes that the program is now well established throughout the organization and is delivering the expected results. As per March 2016, a total of 2,053 employees have received shares through the program. In keeping with the Board's communicated intention when the previous programs were proposed, the Board therefore proposes that a similar incentive scheme be adopted by the AGM in 2016.

The motive for the proposal is the Board's intention to continue with the redesigned bonus structure to enable the Group to gradually have approximately 2,500 of Securitas top managers as shareholders, thus strengthening the employee ownership in Securitas' future success and development to the benefit of all shareholders. The Board is of the opinion that these benefits may be achieved by continuing to provide a share related part in the existing performance-based cash bonus schemes. It is the assessment of the Board that the scheme will also increase the Group's attractiveness as an employer.

The proposal principally entails that 1/3 of any annual bonus earned under the performance based cash bonus schemes would be converted into a right to receive shares, with delayed allotment and subject to continued employment.

The detailed contents of the proposed incentive schemes are described below. In order to implement the scheme in an efficient and cost-effective way, it is also proposed that the AGM authorizes the Board to enter into a so-called swap agreement with a bank/third party.

In light of the proposed conditions, the contemplated size of the scheme and other circumstances, the Board is of the view that the proposed incentive scheme is well balanced and advantageous to Securitas and its shareholders.

The Board intends to recur with proposals for incentive schemes in accordance with the principles here proposed also before AGMs after 2016.

A. Incentive Scheme

The Board proposes that the AGM resolves on the implementation of a share and cash bonus scheme in Securitas, in accordance with the following main principles (the "Incentive Scheme").

1. Approximately 2,500 employees now participating in the Securitas cash bonus schemes will participate in the Incentive Scheme.
2. Employees participating in the Incentive Scheme will be entitled to receive a part of the yearly bonus in the form of shares in Securitas, provided that certain predetermined and measurable performance targets, which currently apply under the cash bonus schemes, are met.
3. The principles already applicable under the existing incentive scheme, shall continue to apply. The existing principles include clearly measurable, performance based targets that are set as close to the local business as possible and aim for long term profitability of the Group. The performance targets vary depending on the position of the employee, but are as a principle based on year-on-year improvement of the operating result ("EBITA") in the area of responsibility. In principle all operative personnel at relevant levels in all regions also have targets based on improvement of cash flow. For the employees of the parent company, the performance is measured based on year-on-year, improvement of earnings per share ("EPS"). The performance improvement compared to

last year's actual, which is required to achieve maximum bonus, varies for different entities throughout the Group.

4. Provided that the applicable performance criteria are met, the annual bonus outcome will be determined at the outset of 2017 and will, subject to sections A5 and A6 below, be payable as follows.
 - (i) 2/3 of the bonus will be paid in cash at the outset of 2017; and
 - (ii) 1/3 of the bonus will be paid in shares of series B in Securitas AB (the "Bonus Shares") at the outset of 2018. The number of shares to which each participant will be entitled shall be determined by the ratio between the available bonus and the average share price at which the shares are purchased (such purchase to be made during Q1 2017 in accordance with applicable regulations).
5. Distribution of Bonus Shares according to section 4 (ii) above will only occur if the total accrued bonus amounts to at least EUR 3,900. If the total bonus is less than EUR 3,900, the whole bonus amount will instead be paid out in cash at the outset of 2017 in accordance with section 4 (i) above.
6. Distribution of Bonus Shares according to section 4 (ii) above is conditioned upon the employee remaining employed by Securitas as of the last day of February of 2018, except where an employee has left his/her employment due to retirement, death or long term disability, in which case the employee shall have a continued right to receive Bonus Shares.
7. Prior to the distribution of Bonus Shares in accordance with section 4 (ii) above, the employee will neither be registered as a shareholder nor have any shareholder rights (e.g. voting rights or rights to dividend) connected to the Bonus Shares. At distribution of the Bonus Shares in accordance with section 4 (ii) above, the employee shall however be entitled to additional shares up to a value corresponding to any dividend decided per share corresponding to the total number of Bonus Shares during the period from payment of the cash bonus in accordance with section 4 (i) until distribution of the Bonus Shares, adjusted to the closest number of whole shares that can be purchased for the dividend for each participant.
8. The number of Bonus Shares that can be received may be subject to recalculation due to share issues, splits, reverse splits and similar dispositions.
9. The Board shall be entitled to resolve on a reduction of the distribution of Bonus Shares if distribution in accordance with the above conditions – considering Securitas' result and financial position, other circumstances regarding the Group's development and the conditions on the stock market – would be clearly unreasonable.
10. Participation in the Incentive Scheme presumes that such participation is lawful and that such participation in Securitas' opinion can take place with reasonable administrative costs and economic efforts. The Board shall be entitled to implement an alternative incentive solution for employees in such countries where participation in the Incentive Plan is not advisable, which alternative solution shall, as far as practically possible, correspond to the terms of the Incentive Scheme.
11. The Board shall be responsible for the particulars and the handling of the Incentive Scheme within the frame of the above principal guidelines and shall also be entitled to make such minor adjustments which may prove necessary due to legal or administrative circumstances.

B. Costs of the Incentive Scheme. Hedging measures

Except for costs related to the swap agreement, as described below, the Incentive Scheme is not expected to cause any costs in addition to already existing costs related to the existing bonus programs.

Similar to previous years, it is proposed that the financial exposure of the Incentive Scheme be hedged by the entry of Securitas into a share swap agreement with a third party, whereby the third party in its own name shall acquire and transfer shares in the company to employees participating in the scheme. The cost for the swap is estimated at SEK 450,000 assuming the same bonus amount as last year.

The proposals according to (A) and (B) above shall be adopted as one single resolution and must be supported by shareholders representing more than half of the votes cast, or, in case of equal voting, by the opinion supported by the Chairman of the AGM.

Quota of total number of shares and effects on important key ratios

The number of shares in Securitas AB amounts to 365,058,897. The Incentive Scheme may lead to acquisition of a maximum of 2,000,000 shares, which is equivalent to 0.55 per cent of the total number of outstanding shares and 0.39 per cent of the total number of votes in Securitas.

In view of the proposed swap agreement, there will be no impact on the earnings per share, other than the increased costs that the Incentive Scheme could cause.

Preparation of the proposal

The above proposal for the Incentive Scheme has been prepared by the Board and the Remuneration Committee in consultation with major shareholders. No senior executive, who may be included in the Incentive Scheme, has participated in decisions on the framing of the scheme.
